DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:
2. Claims 4-15 and 19-33 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n).
3. Claims 34 and 35 are objected to because of the following informalities: Claims 34 and 35 are omnibus type claims and should be cancelled. Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

4. Claims 1-33 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-15 are allowable over the prior art of record because the prior art of record does not teach or disclose a method of using an optical fibre to obtain a distributed measurement of a parameter of interest comprising generating a synthetic output signal from the second output signal and the fourth output signal therefrom and

Art Unit: 2859

generating a final output signal indicative of the parameter of interest by normalizing the first output signal to the geometric mean of the synthetic output signal and the third output signal, in combination with the remaining limitations of the claims.

Claims 16-33 are allowable over the prior art of record because the prior art of record does not teach or disclose an apparatus for obtaining a distributed measurement of a parameter of interest comprising a signal processor operable to generate a synthetic output signal from the second output signal and the fourth output signal and to generate a final output signal indicative of the parameter of interest by normalizing the first output signal to the geometric mean of the synthetic output signal and the third output signal, in combination with the remaining limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. **Sai (US 5765948), Farhadiroushan et al (US 2006/0210269), Wada (US 5217306), Fredin et al (US 2003/0021528), and Sai et al (US 5449233).**
